

Moscow Urban Renewal Agency

Of Moscow, Idaho

Dear Friends,

I am pleased to present the 2011 Annual Report for the Moscow Urban Renewal Agency. The purpose of this report is to fulfill the annual report requirement mandated by Idaho Code §50-2006, which requires an Urban Renewal Agency to file a report of its activities for the preceding calendar year.

Moscow is more than just our address. Since 1996, we have helped shape Moscow and have been shaped by it. We have played important roles in the development of the Alturas Technology Park and are well-positioned to play a major role in the development of the newly created Legacy Crossing District.

We understand Moscow, and have a hard-earned reputation for integrity and commitment to the betterment of our community. Our deep knowledge of Moscow allows us to identify opportunities, while our balance sheet and economic development tools allow us to pursue them.

While the particular steps we take to unlock value from our assets may change in the coming years, some things won't. Foremost is our commitment to the disciplined allocation and investment of capital. Our commitment to a healthy balance sheet will remain unwavering.

I express my deep appreciation for the leadership of our Board of Commissioners, whose wisdom and guidance have been invaluable as we strive to create value. Finally, I thank you, our private and public partners, for your continued support of the Moscow Urban Renewal Agency.

Sincerely,

A handwritten signature in blue ink that reads 'Jeffrey B. Jones'. The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.

Jeffrey B. Jones, AICP

Total other financing sources (uses)	<u>71,321</u>	<u>(71,321)</u>	<u>0</u>	<u>0</u>
Net change in fund balances	2,391	121,449	25,883	149,723
FUND BALANCES AT BEGINNING OF YEAR	<u>39,398</u>	<u>788,725</u>	<u>83,799</u>	<u>911,922</u>
FUND BALANCES AT END OF YEAR	<u>\$ 41,789</u>	<u>\$ 910,174</u>	<u>\$ 109,682</u>	<u>\$ 1,061,645</u>

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES

Net change in fund balances \$ 149,723

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

This is the capital outlay for the current period. 32,500
This is the amount of depreciation taken during the current period. (55,840)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities:

Principal payments made on long-term debt 146,692
Deferred issuance cost amortization (2,196)

Change in net assets - Governmental Activities \$ 270,879

Financial Report, Yr Ended Sept. 30, 2011

Alturas Technology Park District

Summary

R&D Technology Development

Revolutionary. That's technology. In order to keep pace with invention and discovery, you need an environment that allows technology to thrive. The Alturas Technology Park is a place where inspiration happens; where knowledge and community are shared. It's vital ground for the cultivation of ingenuity.

Located just 7 miles from the nearest regional airport and **within 10 miles of two major universities**, this unique business park also offers access to the local fiber-optic network and a public park.

The Alturas Technology Park is the Moscow Urban Renewal Agency's first district and is currently home to many of Moscow's premier high-tech companies, including **EMSI, Comtech EF Data Corporation, Alturas Analytics, Inc., Anatech Labs, Inc., and BioTracking, LLC**. This year the businesses in Alturas also experienced additional growth. EMSI made the Inc. 5000 List for the 5th straight year.

These companies now have a total payroll of \$6.2 million and pay an average wage of \$50,650, which is significantly higher than the city's median household income of \$35,389. Furthermore, the park contributes an estimated **adjusted impact of \$26.7M to the local community**.

The Moscow Urban Renewal Agency has six (6) lots left for sale within the Alturas Technology Park. The lots range in size from 28,370/SF to 38,885/SF and are priced at \$2.34/SF.

During FY2011:

- MURA staff prepared four (4) packages in response to RFIs submitted by industry Site Selectors; and,
- Distributed thirty-six (36) digital real estate packages to potential company relocates.

Alturas Technology Park Project Area Map

Legacy Crossing Urban Renewal District

Summary

Mixed Use Development

The Legacy Crossing Urban Renewal District was created in June of 2008 and is the Agency's second urban renewal district. Legacy Crossing covers approximately 163 acres and includes a majority of the blighted and underutilized properties located between Moscow's historic downtown and the University of Idaho. The Agency, through public private partnerships, will focus on

redeveloping the district into a vibrant and attractive mixed use neighborhood and shall promote a pedestrian and bicycle friendly environment with an emphasis on comfortable and convenient access to Moscow's downtown and the University of Idaho, including the design and development of the "Hello Walk" extension.

Towards that end, the Agency completed the following development activities during YR2011.

- In February 2011, the property acquired by the Agency at 6th and Jackson Street was secured by cables and bollards to prevent unauthorized use of the property.
- May 2011, Relient Engineering evaluated the seed sack warehouse located at 6th and Jackson Street for adaptive reuse.
- June 2011, the City of Moscow building department notified the Agency that the seed sack warehouse was deemed to be an unsafe and dangerous building and that the Agency would need to commence work within 15 days to remove the potential threats to public safety.
- July 2011, the Agency Board of Commissioners directed staff to prepare the seed sack warehouse for demolition.
- August 2011, STRATA completed an asbestos and lead based paint survey for the seed sack warehouse and coffee house located on the 6th and Jackson Street property.
- August 2011, the Legacy Crossing District repaid The Alturas Technology Park District start-up loan in the amount of \$35,396.84.
- September 2011, LaMoreaux Photography photographed the seed sack warehouse for historic preservation purposes.
- September 2011, Germer Construction secured the site and began the demolition of the seed sack warehouse. Site cleanup and final inspections were also completed during September 2011.
- September 2011, the Agency finalized a Limited Resource Promissory Note with the Anderson Group LLC relating to the environmental remediation of the Anderson Group LLC property.

Land sales in the Alturas Technology Park Urban Renewal District have been slower than anticipated, primarily due to the global recession and in part due to challenges developers have had obtaining financing. The capital markets remain

tight due to the credit crunch, questionable residential lending practices and aggressive commercial lending practices. With Federal regulators pressuring or shutting down banks, many of these institutions aren't lending money. Consequently, it's difficult and at times impossible for developers to obtain loans. Furthermore, the shift from spec building to more pre-

leasing is likely to continue into the foreseeable future.

The current inventory of lots is six (6). Agency staff anticipate sales in the next few years to increase as the Agency's branding initiative and promotional efforts begin to take effect.

EPA Brownfield Coalition Grant

Assessments

Creating the opportunity for economic revitalization through Brownfield redevelopment is a primary goal of the Moscow Urban Renewal Agency. The United States Environmental Protection Agency (EPA) defines brownfields as “real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.” These problem properties are not uncommon. According to the

General Accounting Office (GAO), there are close to 450,000 brownfields in the United States.

In 2010, the Moscow Urban Renewal Agency partnered with the City of Moscow and Latah County and was awarded an EPA Brownfields Assessment Coalition Grant totaling \$475,000.

The grant allows for environmental assessments and cleanup planning for sites

located primarily within the Legacy Crossing Urban Renewal District. The Agency's Executive Director is also the Project Manager for the EPA Brownfield Coalition Grant.

In 2011, the EPA determined the following four (4) Moscow site locations to be eligible for Phase I and /or Phase II Environmental Assessments:

- 317 W. 6th Street;
- 207 N. Main Street;
- 1102 S. Main Street; and
- 103 N. Almon Street.

Brownfield redevelopment can benefit both private investors and the Moscow community. For the public /private sectors, brownfield redevelopment can mean new business opportunities, the potential for profit on unused or under-utilized properties, increased environmental stewardship, and access to untapped markets.

Public Comments

The comment period on the Draft 2011 Annual Report was opened on February 2, 2012 and closed on March 16, 2012. No comments were received by the Agency during this period of time.
